wjct WJCT is the only station in the area to be recognized as the Heart Gallery of Jacksonville in a special award.

The Heart Gallery of Jacksonville is designed to help children in waiting find permanent and loving families to call their own.

The children featured in the Heart Gallery are deserving of dignity and respect and, most importantly, a second chance at a new life. It is our hope that these portraits will touch prospective parents and encourage them to adopt.

These children need a future.

They need a home.

It could be yours.

Many photographers dedicated their time and talent to capture the faces of our community's forgotten children.

We welcome you to see their faces in the **Heart Gallery Tour of Portraits**.
